

LOCATOR TRANSFER UTILITY

RELEASE DATE: NOVEMBER 30, 2018

WHAT IT IS

The ability to send and receive locators between GoSystem firms without having to request that Thomson Reuters transfers the data.

WHO CAN DO IT

External locator transfer rights will be automatically granted to your RS Admin and you will have the ability to grant permission to additional users.

HOW IT WORKS

A user from Firm A (firm receiving the locator) will generate a token and send it to Firm B (firm sending the locator). Firm B, using the token will be able to send the data to firm A within the next 72 hours.

HOW TO MONITOR

Both firms will have access to a screen where they can acknowledge, monitor and track the status of locators they have sent or received.

WHAT IS THE COST

This is a free service!
